# WHY A FOUNDATION?

When disaster strikes it's our nation's Fire Service that responds first, to save lives and property.

Due to the tragic events of September 11th, Hurricane Katrina and other major events that continue to effect our daily lives, we have discovered the need for communities to become more proactive in supporting the Fire Service in America.

To support its objectives that includes the protection of life and property, the men and women of the Atlanta Fire Rescue Department need the latest tools and equipment in order to provide you with the best-in-class emergency response possible.

Unfortunately, budgetary constraints make it increasingly difficult to secure the funding necessary to meet the safety needs and expectations of our residents, businesses, and visitors.

The efforts of the Atlanta Fire Foundation, with your support, provide a tax-deductable conduit for residents and businesses of Atlanta, our stakeholders, to financially and materially support the mission of the Atlanta Fire Rescue Department.

By partnering with the Atlanta Fire Foundation, you can ensure our city's firefighters that make up the Atlanta Fire Rescue Department are highly trained and readily equipped to respond to any emergency that may arise.
